Goal

I enjoy working with things
that can benefit the company /
society greatly, no matter the
issue's complexity.

As a current master's student,
I would really appreciate an
internship during summer or
winter holidays, so that I can
prepare for a full-time job / Ph.D.
when I graduate.

Certification & Qualities

Software Design Engineer, China Qualification of Computer and Software Technology.

CKA: Certified Kubernetes Administrator, issued by Cloud Native Computing

Foundation (CNCF), free training and certification thanks to the Linux Foundation Training (LiFT) Scholarship (China) 2020 in Academic Aces category.

Rich Programing experience: I have many personal projects on GitHub. Contributed to many open-source projects, such as TensorFlow, docker etc. for companies like Microsoft, Google.

Easy to work with: I'm an experienced open-source contributor with 1.5k followers and hundreds of Pull Requests on GitHub, collaborating with upstream maintainers frequently.

Consistent: I became an openSUSE member, due to my excellent development and continuous maintenance work even after the Google Summer of Code 2021 funding period ended.

Trustworthy: If I luckily get selected to do internship, after internship, I'm willing to do my master's thesis at your team, and then get an official place to continue working.
